

# **HOW CPS “LEGALLY” STEALS YOUR CHILDREN**

JM-06/20/2010

First of all it should be made perfectly clear that CPS, the County and the Superior Court are a criminal conspiracy working together to kidnap your children for profit. This is not speculation, this is the truth. It is the Child Protection **industry** and brings billions of dollars a year to criminal local governments and “providers” who do what CPS tells them to do. CPS has no real interest in the children and their motivation is money from Federal funding and private adoption sources only. **This is purely and simply child trafficking for profit by our own imposter government.** Only one out of 10 children kidnapped by CPS has any child abuse at all. The rest are taken because CPS claims they might have a risk of being injured only, no injury or abuse. Why? Because they are paid thousands of dollars per year for each child they adopt out until they are 18 years old! **CPS can take your child for any reason they want** and unless you know what is going on, you will lose your children to the most corrupt and evil government in the world, **your local county government.**

Government employees and especially CPS employees have become an almost new species of human being. The word public Servant no longer applies. They have no interest in serving the public and in fact, they believe their job is to control the people and keep them in line with the bogus color of law frauds they have illegally forced upon the people. They are the enforcers to make sure that we the sheeple march goose step to the governments drum beat of enslavement. They are no different than the Nazi's of WW II. Your local government has now become the home of the criminals and secret combinations that select their employees from people who are morally bankrupt, godless, unethical, no integrity, dishonest, often soulless followers who will do what they are told. They might not go into it that way but it doesn't not take long, if they want to keep their jobs, before they become like that. They are trained to lie, manipulate, cheat, falsify information, perjure, and do anything else necessary to control the sheeple and are taught that it is alright to do these atrocities because the government sais so and the sheeple do not know what they are doing and need the government to tell them. They are sheeple herders, plunders, exterminators and minuplaintors all using fraud and deceit.

The problem is that they are taught that they are right and you are wrong so trying to get them to understand the evil they are doing and that they are really criminals is impossible as they will not listen. In fact, they are taught that anyone who tells them this is crazy and needs to be brought into the fold by any means possible. Attempting to try and tell a CPS worker that they are making up false allegations and lying from their point of view only means that you are not ready to have your child back as you are still in denial and have not taken responsibility for your actions and cannot have your child back until you conform. In other words, it is very hard to get your child back until you fight CPS as hard as you can and shine the light of truth upon the CPS frauds and corruption in court.

**Do not under any circumstance believe for a second that doing what CPS says is the only way to get your child back.** This is a lie by some of the attorney leaches who are part of the Child welfare industry. They are not working for you, they are working for CPS! **The key to getting your child back is at the first hearing. You must go to trial. Do not let your attorney talk you out of this (and they will try and pressure you very hard) because the only way to get your child back is to work with CPS. One more time this is a lie and they are selling you out.** That is what attorneys do; they get their clients to accept the charges of the court. Why? Because they work for the court and are officers of the court and by getting you to “work with CPS” it means 12 to 24 months of more hearings for them to extract all the money out of you they can. Trust me, as soon as you are out of money they will immediately leave. If it goes to trial and you win, they have no more host to suck all the blood out of. This is not a joke. **Go to trial.** If you do not, you will probably never get your child back no matter what you do.

At first you will want to work with CPS as you are a good person and believe that you will get your child back if you do what they say. **Do not succumb to this urge and deception. CPS is evil and you are going into a one way trap and will not be able to get out at some point if you think they are going to work with you. They dangle your child before your eyes like a carrot before a horse tempting you by saying follow me and you will get your child back! DO NOT BELIEVE THIS LIE!!! THEY DO NOT CARE ABOUT YOU OR YOUR CHILD THEY ONLY CARE ABOUT THE MONEY AND THEY WILL DO ANYTHING THEY CAN TO GET IT!!!!**

**Why won't you get your child back?** Because Juvenile court is a kangaroo court that is a total fraud and deception based on color of law frauds and is part of the criminal conspiracy stealing children. It is totally unconstitutional and is a total denial of your due process rights. How can they get away with this? Remember they are criminals in control of the courts and law enforcement and they can do anything they want. Here are a few of the scams they use in the kidnapping process to steal your child as they slowly steal your rights and get you to agree with everything.

1. One of the first things you will see is that the first CPS report you will receive will make you look like the most evil despicable parents in the world. You will probably be in total sock and physically sick after reading their report. How can they say such lies? Samples of CPS allegations: bottle of kids gummy vitamins on the counter = CPS= dangerous medications in the reach of the child. An apple on the floor = CPS= rotting food all over the house. Cooking fish in your house = CPS= smelly toxic fumes dangerous to child welfare. Picture of 3 months old naked baby on a blanket = CPS= child porn on display in the home. Porch light out at your house = CPS = unsafe environment leading to possible severe injury to the child. If CPS came by your house in the day when the child was in school and you looked like you were asleep = CPS = overmedicating and incapable of taking care of your child. Taking chronic pain medications = CPS = cannot be a good parent and cannot drive the child. Asking CPS if

there is anything left in your case plan to finish = CPS = Parent is not taking responsibility for their actions and needs more counseling. This is not a joke, these are actual CPS allegations. This should help you get an idea of what CPS is really all about! **If you do not rebut their crap it becomes facts in the court.**

2. **This is the key to the CPS scam.** CPS can enter its bogus reports into the court without the CPS workers signing under the penalty of perjury. This allows them to lie through their teeth and get away with it. In a real court of law their bogus reports could never be entered into evidence as it is nothing more than hearsay! **CPS tricks you into accepting their lies and false allegations by making a deal with you (case plan) and it gets entered into court as truth. Never forget this fact: Un-rebutted lies become facts in the court.** What happens when you agree to work with CPS and cut a deal with them (case plan) is that the CPS report, the case plan and the orders of the court, that CPS writes and that you will probably never see, get entered as facts in the court. That means that the court record will show by proof that is deemed true because it was never rebutted, that you are indeed a scam bag parent even though you are not. It is a done deal. You are now a scam bag abusing parent and there is nothing you can do about it and you agreed to it. (even though it was by fraud and deception). You have to go to trial to rebut their lies or you are a scam bag evil abusing parent.
  
3. Here is the rest of the story about the “working with CPS” scam. You will go through 5 to 8 hearings in this process. At every hearing the same scam is working. CPS writes a bogus report saying that you are still not in compliance and will change the requirements on you sometimes without even telling you and then blame it on you. This goes on and on. At first you think that it is just a CPS mistake not knowing that it is part of the trap. What is really going on here? At every hearing CPS is entering all its reports and case plan changes into court often without even telling you what they are. They get you to agree, in front of a judge, to their latest deal which includes accepting all these bogus reports that you are not even aware of. (This practice is called an adhesion contract) You think that you are getting closer to getting your child back because you now have only a few things you have to do and they are home. Wrong! What they have really done is suckered you farther down into their trap. **If you do not win by the reunification hearing your child is gone.** What is really happening is that CPS is building an iron clad case against you on the record of the court and deceiving you into thinking you will get your child back. Since you are only concerned about getting your child back you will do anything they say including signing your rights away even though there is no full disclosure and you do not know that is what they are doing to you. You on the other hand have absolutely no case at all as you have made a deal with them every time. In other words, you are screwed! The trap door then closes and they take your child and adopt them out. At that point, there is nothing you can do as you have given up all your rights and have no case record. You

cannot even appeal it in court as you have no record and CPS has an overwhelming record of “facts” converted from lies to truth by law and you have nothing.

4. What CPS was doing the entire time was setting you up, hearing by hearing, to steal your child by making you believe that you would get them back. (Bait and switch scam) They tricked you into accepting a bogus deal (case plan) and agreeing in court, of your own free will and choice, to all their lies. These lies are then entered into the court record as facts, often without you even knowing about it. After a few hearings you have given up all your rights and you do not even know it. **The only way to stop this fraud is to go to trial where they have to prove their unfounded allegations.** In a trial, if your attorney does not rebut every one of their unfounded allegations and demand real proof of CPS's claims he is working for CPS. Right there in court demand that he rebut their lies, every single one of them! If he will not do it, ask the judge if you can make a statement and then you rebut their lies and demand a new trial. Even if you lose the trial you at least have a record in the court which you can then appeal later if necessary. **Without a trial, to get the truth into the court, you have in reality voluntarily given up your child to CPS without even knowing it all because you thought they would give your child back. Its called con job!!!**
5. Once again, CPS workers are criminal low life scum bags and they are not your friends no matter how friendly they are to you. They are only looking to get information from you that they can then use against you, to hang you. **DO NOT TRUST ANY CPS WORKER OR PROVIDER! DO NOT EVEN TRUST YOUR ATTORNEY AND CHECK EVERYTHING HE DOES AND DO NOT AGREE WITH HIM IF YOU DO NOT FEEL RIGHT. DO NOT LET THEM PRESSURE YOU INTO SIGNING AWAY YOUR RIGHTS WHICH WILL LEAD TO YOU LOSING YOUR CHILD.**
6. If your case had no injury or abuse only the possibility of “substantial injury” **GO TO TRIAL!! GO TO TRIAL !!! GO TO TRIAL!!!** In reality CPS cannot prove something that never happened. Even if your attorney is a moron he should be able to rebut something that never happened. Even if you lose the first trial due to a corrupt judge you have a very good chance of winning on appeal as you now have facts on the record. The appeal judge is probably not part of the criminal conspiracy and more likely going to look at the truth and overturn the case.
7. Remember, CPS does not want you to go to trial. They are really lazy and want you to voluntarily give up your rights and child and have a system in place to accomplish this by fraud and deception. **All they need to do is to deceive you into doing their deals scam voluntarily.** Going to trial means that their unfounded allegations are going to be challenged and they will have to defend them. Shinning the light on their scam makes them scurry for cover and less likely to continue their open lying

operations. You might even nail them for fraud or perjury. **YOU HAVE TO STOP THEM BY TRIAL. THERE IS NO OTHER WAY! . YOU HAVE TO STOP THEM BY TRIAL. THERE IS NO OTHER WAY!**

8. If you have the experience and ability to do your own case (pro se) without an attorney it might work to your advantage as you can really hammer them on things your attorney will not do as he is an officer of the court. You can challenge the jurisdiction of the court, refuse to allow the CPS reports into the court without requiring CPS employees to sign under penalty of perjury, establish your standing as a natural man or woman for which the court has no jurisdiction, file an Admiralty counterclaim, etc. You have to be careful as they are all liars and will constantly try and trick you but you will at least have a record in court.
9. Grand parents can also usually file petitions in the court into the parent's case. If facts are not getting in the court have them file a petition and state the facts and what is really happening and ask for dismissal or anything else. The judge will usually deny the petition but you will have more ammunition on the record of the court for your appeal. **From day one, plan for your appeal and do everything with an appeal in mind.**
10. It might seem strange to you that your child was literally taken for no reason and you were conned by the CPS child stealing machine and lost your child while several mothers addicted to illegal drugs got their children back right away. This just does not make sense any way you look at it. What is really going on here? Remember, your local government it is all about the money. Everything they do is about the money only, even though they always have a false front like CPS caring for children. So how come addict mothers are getting their children back and good parents are not? It's the money of course! There are Federal funds that the local government can get for mothers who are addicted (now a medical condition). Therefore, CPS gives their children back so they can milk this new Federal funds source for as long as they can. Then when that source runs out, they will take their children so they can tap into the next Federal Fund pot (Child adoptions). It is as simple as that.

There was recently a case where an addict mother killed one of her infant twins by breast feeding them drug tainted breast milk. What did CPS do? They gave her the surviving twin back after only a few months. Why? The money of course! Did they care about the child or the money? This gives you an idea of the evil scum bags you are dealing with. They will kidnap children all day long, destroy parents and families all for the money and let an addict mother have her children back all for the money. If there is a hell, it is for these types of people! These people make the Nazi's look like school kids. We won't even get into the drugging of CPS kidnapped children so they

will not be any trouble as they lie in a drug induced stupor while CPS collects Federal money for them. Yes, children are CPS's cash cows and they are milking them until they literally die! YEH, CPS really cares about children!!!! Every CPS employee and every Juvenile Court Judge are low life criminals scum bags and traitors to our country and need to be thrown in jail and never allowed to hold any public office every again or allowed to hold any job that deals with children. They are the lowest of the lowest because they are terrorizing and torturing defenseless children and destroying their families all for the money!!! As traitors they should all face the death penalty in court and beg for mercy from the judge here on earth because in the next life they are all going straight to hell.
